

EXPRESSION OF INTEREST (EOI) FORM

1. Company Information:

Company Name: _____

Legal Address: _____

Contact Person: _____

Position: _____

Phone / E-mail: _____

2. Declaration of Interest:

We hereby express our company's interest in participating in the contractor selection procedure for the implementation of the project "Almaty International Airport Aviation Fuel Farm Project", as announced by JSC "Almaty International Airport" (hereinafter — the Client), in accordance with the conditions set forth in the Notice of Contractor Selection.

We confirm that our company meets all minimum qualification requirements and kindly request instructions for completing the registration process on the Tenflex electronic platform (www.tenflex.net) in order to obtain access to the selection documentation.

Should our company decide to proceed with participation in the selection procedure, we confirm our readiness to strictly comply with all instructions, conditions, and requirements set forth in the provided materials.

3. Confirmation of Compliance with Qualification Requirements:

No.	Qualification Requirement	Compliance (✓)
1	No record of contract non-performance over the last 5 years, confirmed by the absence of court rulings or amicably settled disputes.	

2	No activation of a Bid-Securing Declaration within the last 5 years.	
3	Total volume of ongoing litigation does not exceed 25% of the company's net assets and is considered resolved against the company.	
4	Current assets to current liabilities ratio not less than 1.5.	
5	Equity to total assets ratio not less than 20% for each of the last 3 years.	
6	Average annual turnover from construction activities over the last 3 years is at least USD 30,000,000.	
7	Availability of confirmed financial resources of at least USD 3,000,000.	
8	At least 10 years of experience in similar projects as a contractor, subcontractor, or managing contractor.	
9	Participation in at least 3 projects over the last 5 years with a total value exceeding USD 15,000,000, including at least one project worth at least USD 30,000,000.	
10	Projects that include EPC Works for fuel supply and dispensing facilities within similar operational airports.	
11	Projects that include execution of automatic fire, gas and fuel leak detection alarm systems, automatic fire extinguishing systems,	

	Piping E&I and automation networks, pumping stations and hydrant systems, nor necessarily for an aviation fuel farm.	
12	At least a project on aviation fuel farms while maintaining operations.	

4. Confirmation of Accuracy:

We hereby confirm the accuracy of the information provided and express our readiness to submit supporting documents upon request from the Client.
